# Step 1

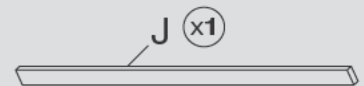

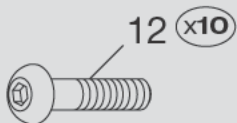

1.1 Attach the under table bar (J) and the foot rest (K) to the table legs (I) using the screws (12) as illustrated.

# Étape 1

1.1 Attacher la barre sous table (J) et le repose-pieds (K) aux montants de table (I) en utilisant les vis (12) tel qu'illustré.

Parts required for this step / Pièces requises pour cette étape :

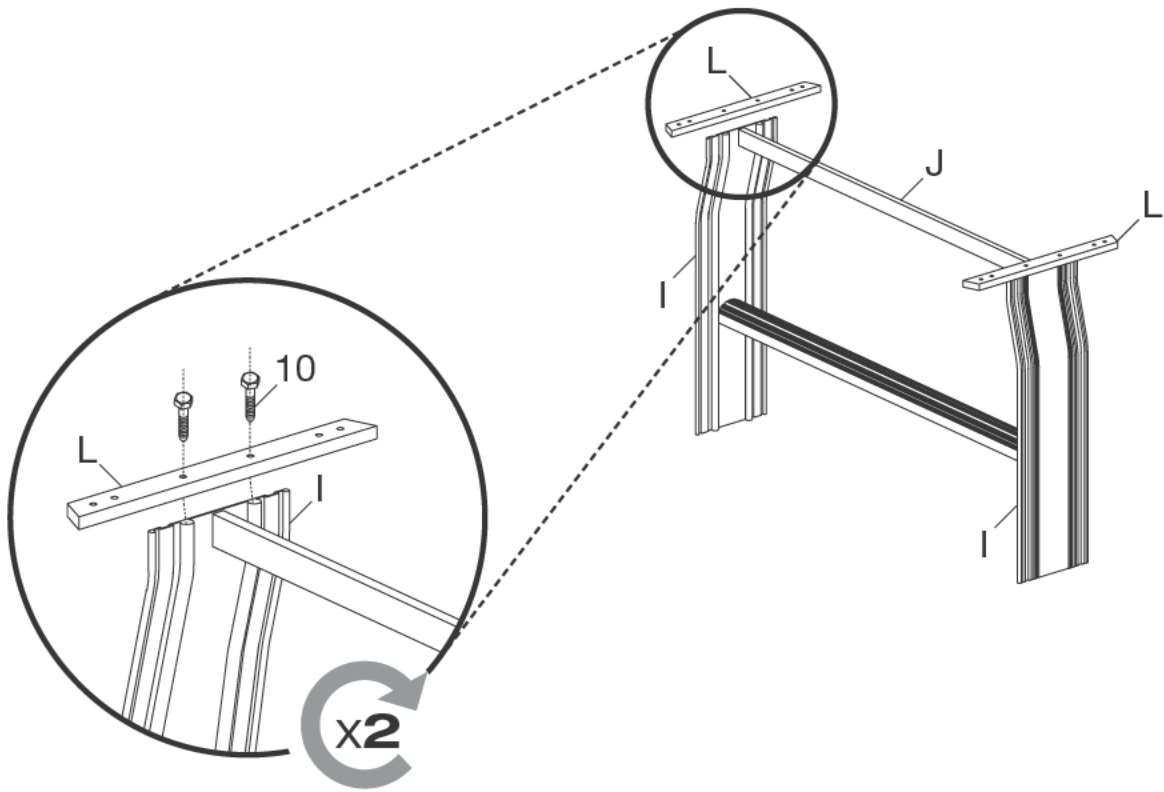

## Step 2

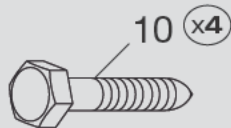

2.1 Attach the table supports (L) to the table legs (I) using the screws (10) as illustrated.

## Étape 2

2.1 Attacher les supports de table (L) aux montants de table (I) en utilisant les vis (10) tel qu'illustré.

Parts required for this step / Pièces requises pour cette étape :

**IMPORTANT:**

Always install the structure on a level platform, wood or concrete.

**IMPORTANT :**

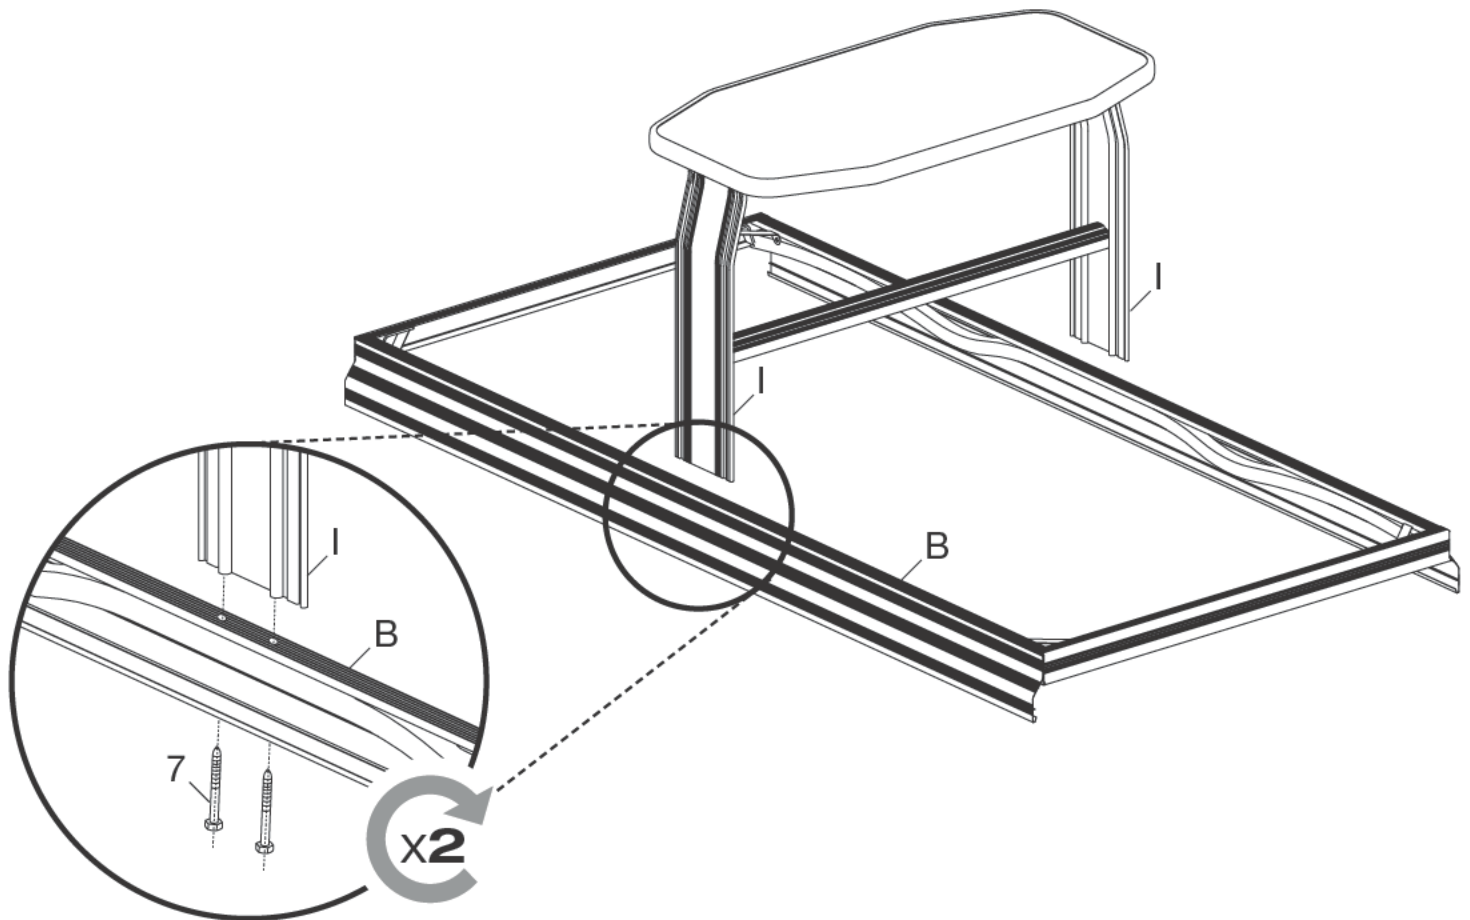

Toujours installer la structure sur une surface de niveau.

## Step 4

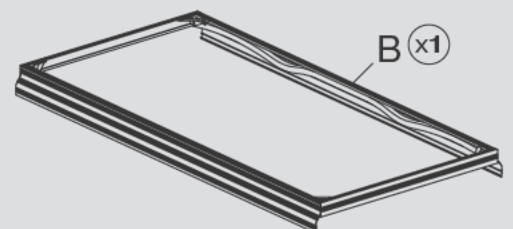

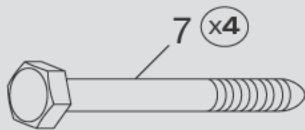

4.1 Attach both table legs (I) to the floor frame (B) using the screws (7) as illustrated.

## Étape 4

4.1 Attacher les deux montants de table (I) au cadre de plancher (B) en utilisant les vis (7) tel qu'illustré.

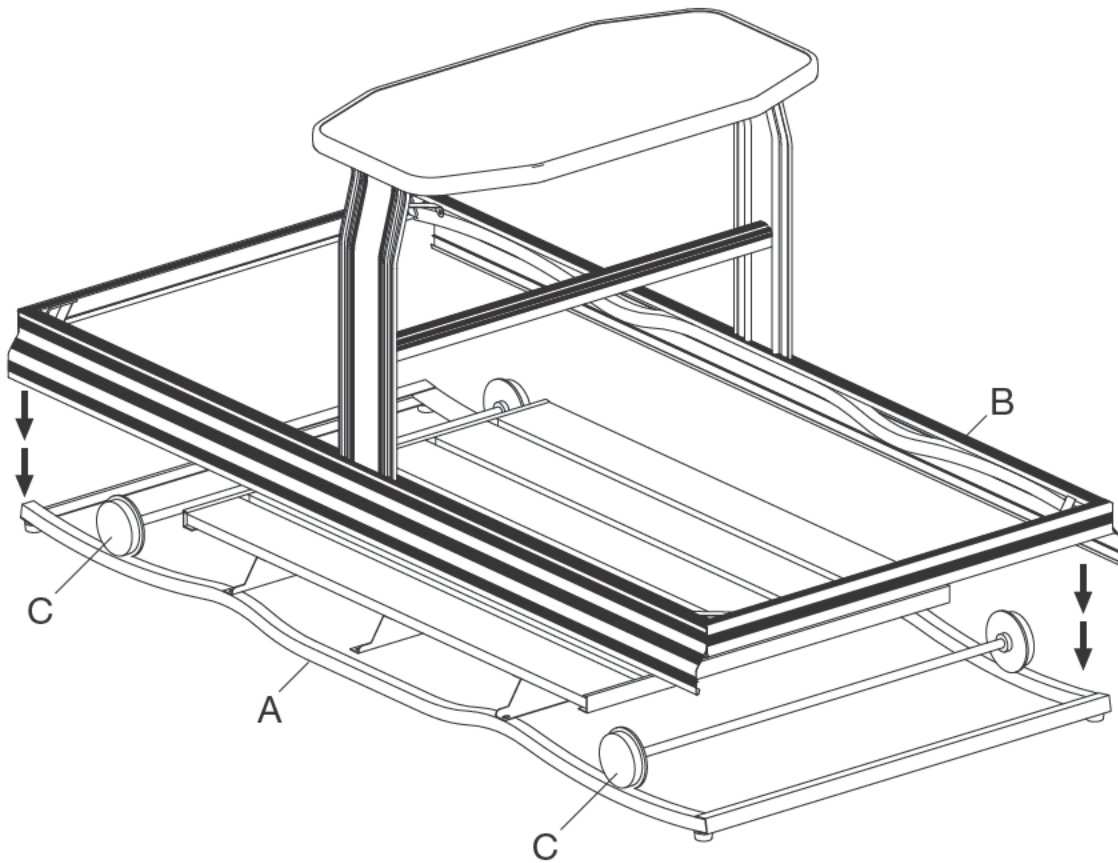

Parts required for this step / Pièces requises pour cette étape :

## Step 5

5.1 Place the wheel sets with bars (C) over the rails found on the floor (A).

5.2 Place the floor frame (B) over the floor (A).

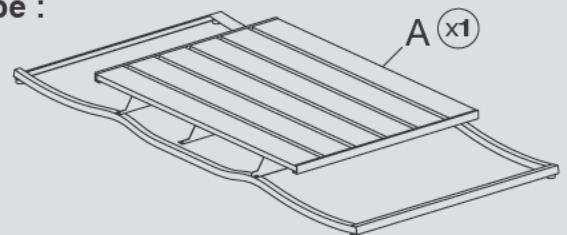

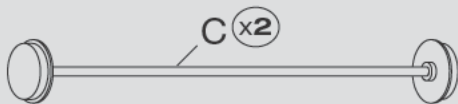

## Étape 5

5.1 Placer les ensembles de roues avec barres (C) sur les rails du plancher (A).

5.2 Placer le cadre de plancher (B) au dessus du plancher (A).

Parts required for this step / Pièces requises pour cette étape :

# Step 6

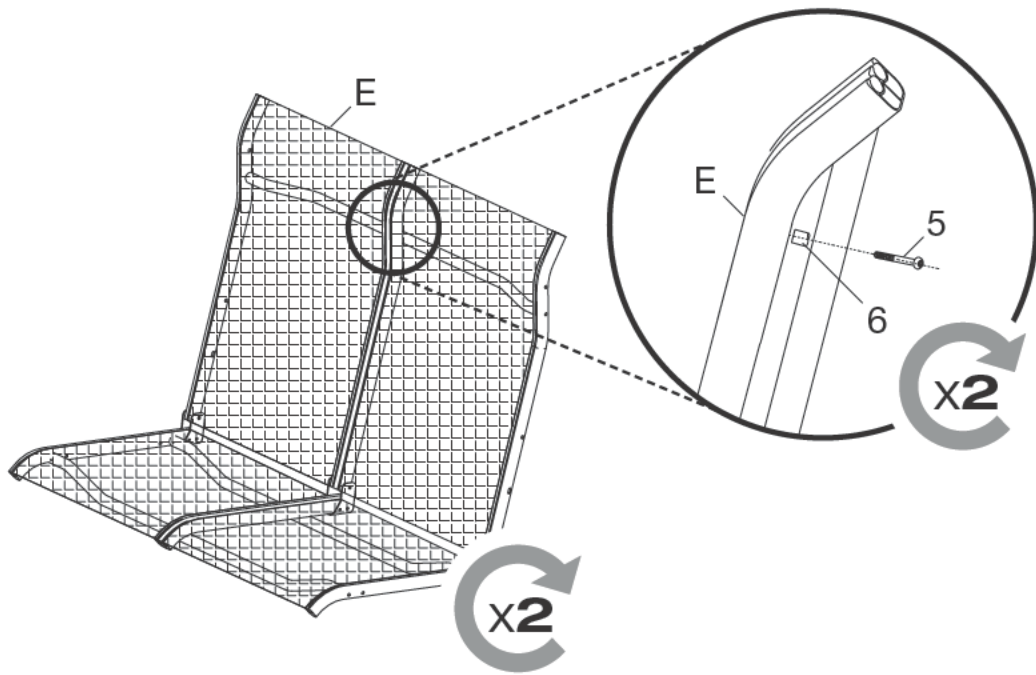

6.1 Install a spacer (6) behind the seat (E) using a screw (5) as illustrated.

Repeat for the second seat (E).

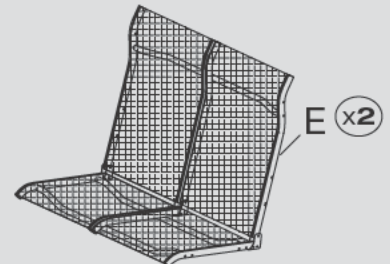

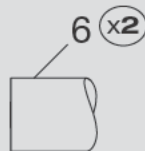

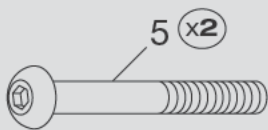

# Étape 6

6.1 Installer une entretoise (6) à l'arrière du banc (E) en utilisant une vis (5) tel qu'illustré.

Répéter pour le deuxième banc (E).

Parts required for this step / Pièces requises pour cette étape :

# Step 7

7.1 Attach the under bench back bar (G) to the right arm (D) and to the left arm (D1) using the screws (4) as illustrated.

7.2 Attach the under bench front bar (F) to the right arm (D) and to the left arm (D1) using the screws (4) as illustrated.

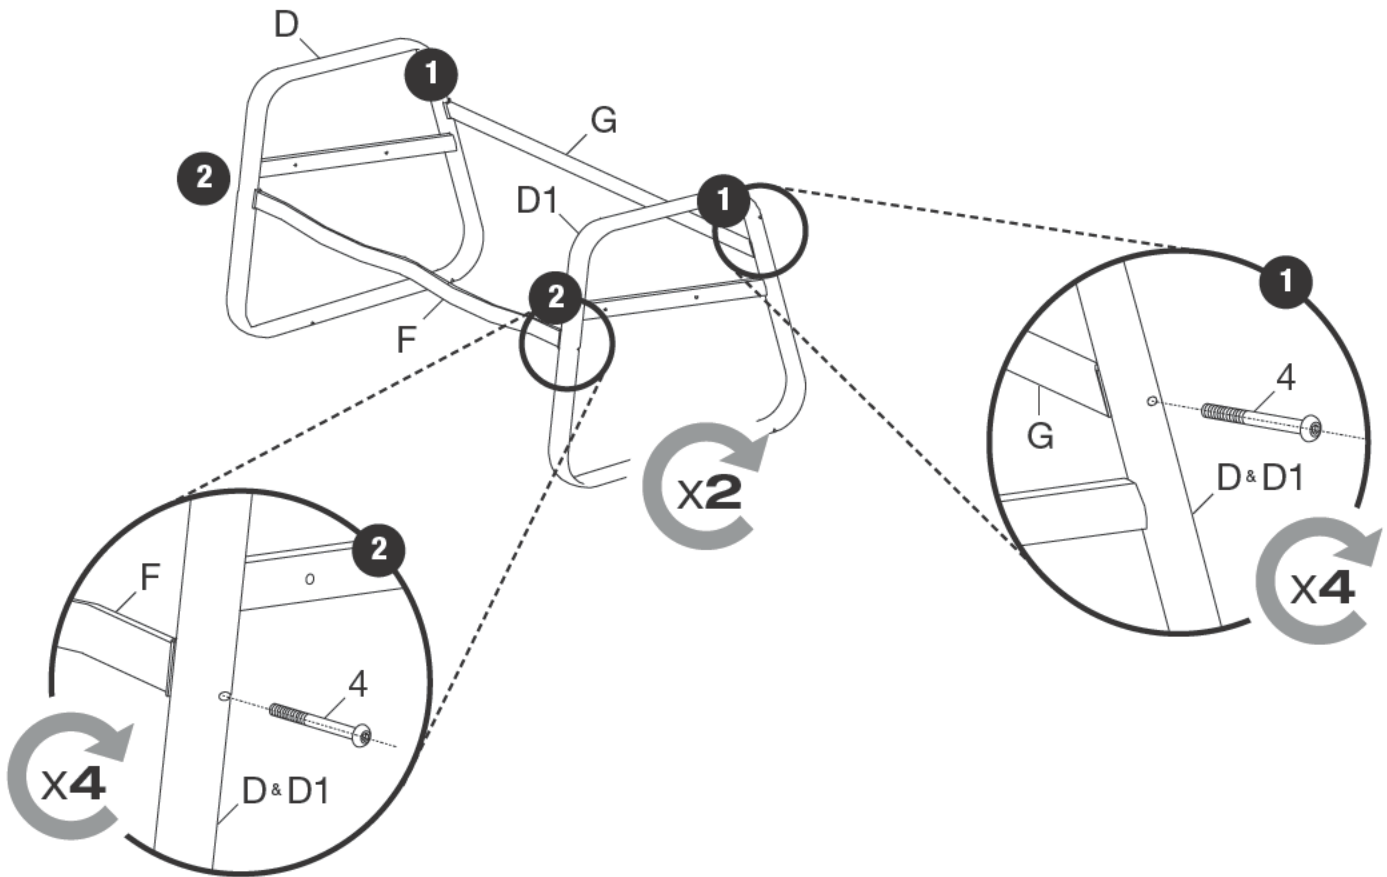

Repeat for second seat assembly.

# Étape 7

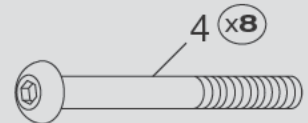

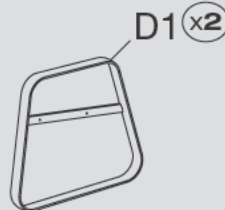

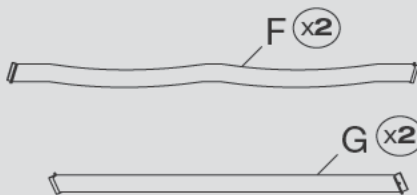

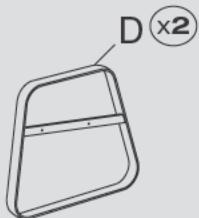

7.1 Attacher la barre arrière sous banc (G) au bras droit (D) et au bras gauche (D1) en utilisant les vis (4) tel qu'illustré.

7.2 Attacher la barre avant sous banc (F) au bras droit (D) et au bras gauche (D1) en utilisant les vis (4) tel qu'illustré.

Répéter pour l'assemblage du second banc.

**Parts required for this step / Pièces requises pour cette étape :**

# Step 8

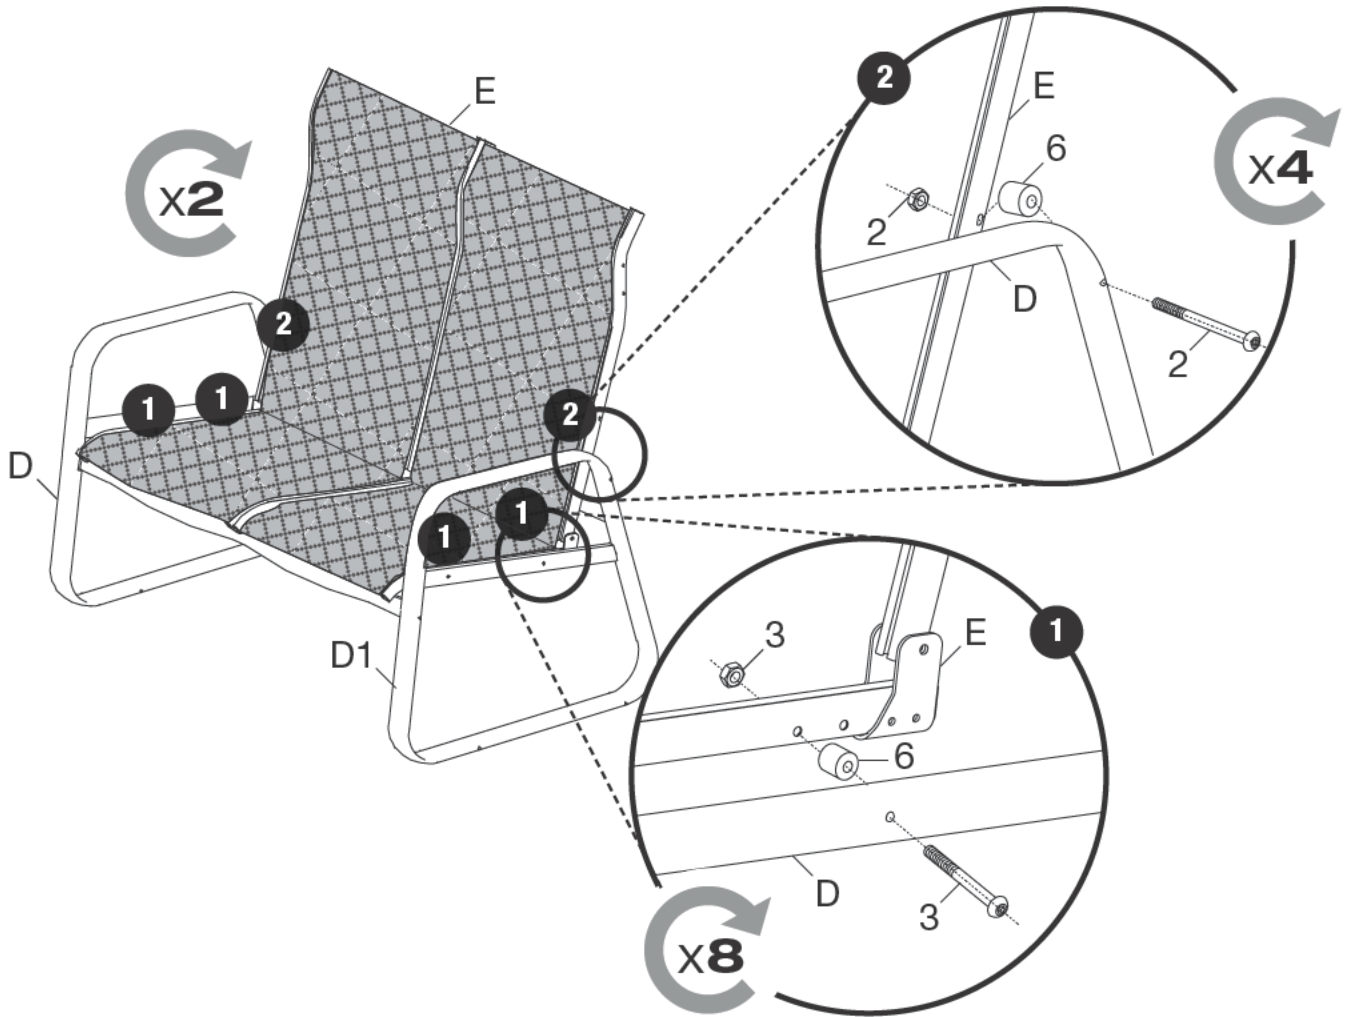

8.1 Attach the seat (E) to the right arm (D) and to the left arm (D1) using the spacers (6) and the proper screws and nuts (2 or 3) as illustrated.

Repeat for the remaining seat (E).

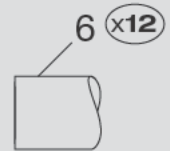

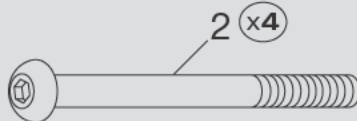

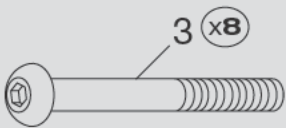

# Étape 8

8.1 Attacher le banc (E) au bras droit (D) et au bras gauche (D1) en utilisant les entretoises (6) et les vis et écrous appropriés (2 ou 3) tel qu'illustré.

Répéter pour le banc (E) restant.

**Parts required for this step / Pièces requises pour cette étape :**

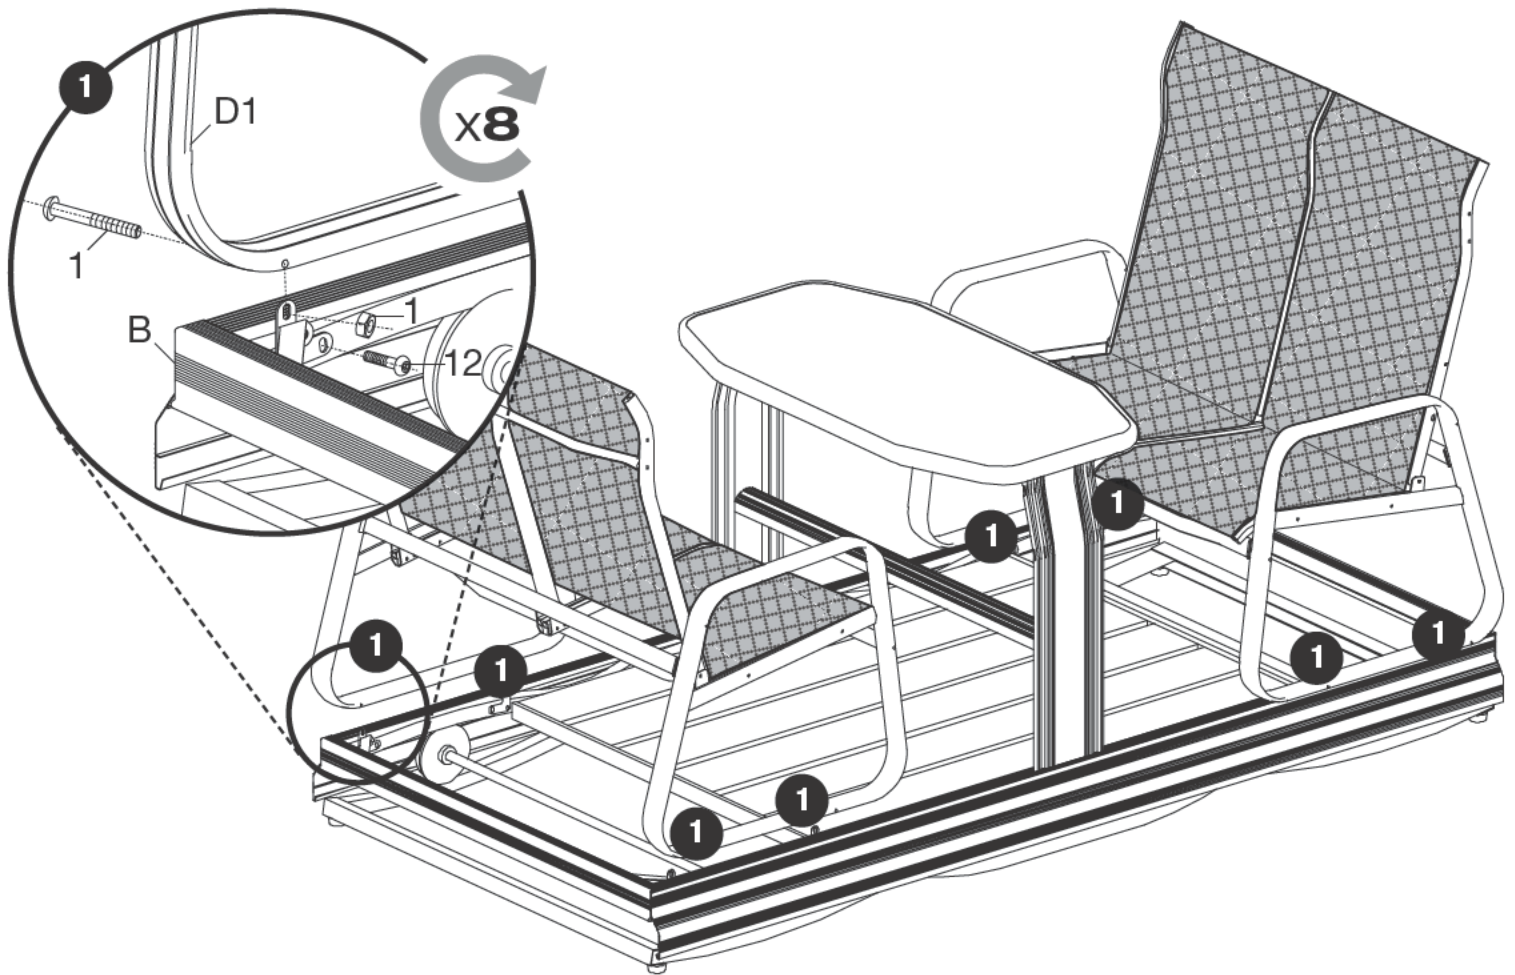

## Step 9

- 9.1 Attach the right arm (D) and the left arm (D1) to the structure using a screw and nut (1) from the outside of the structure as illustrated. Repeat for remaining arms (D and D1).
- 9.2 Attach the seats to the floor frame (B) using the screws (12) from the inside of the structure as illustrated.

## Étape 9

- 9.1 Attacher le bras droit (D) et le bras gauche (D1) à la structure en utilisant une vis et un écrou (1) à partir de l'extérieur de la structure tel qu'illustré. Répéter pour les bras (D et D1) restants.
- 9.2 Attacher les bancs au cadre de plancher (B) en utilisant les vis (12) à partir de l'intérieur de la structure tel qu'illustré.

Parts required for this step / Pièces requises pour cette étape :

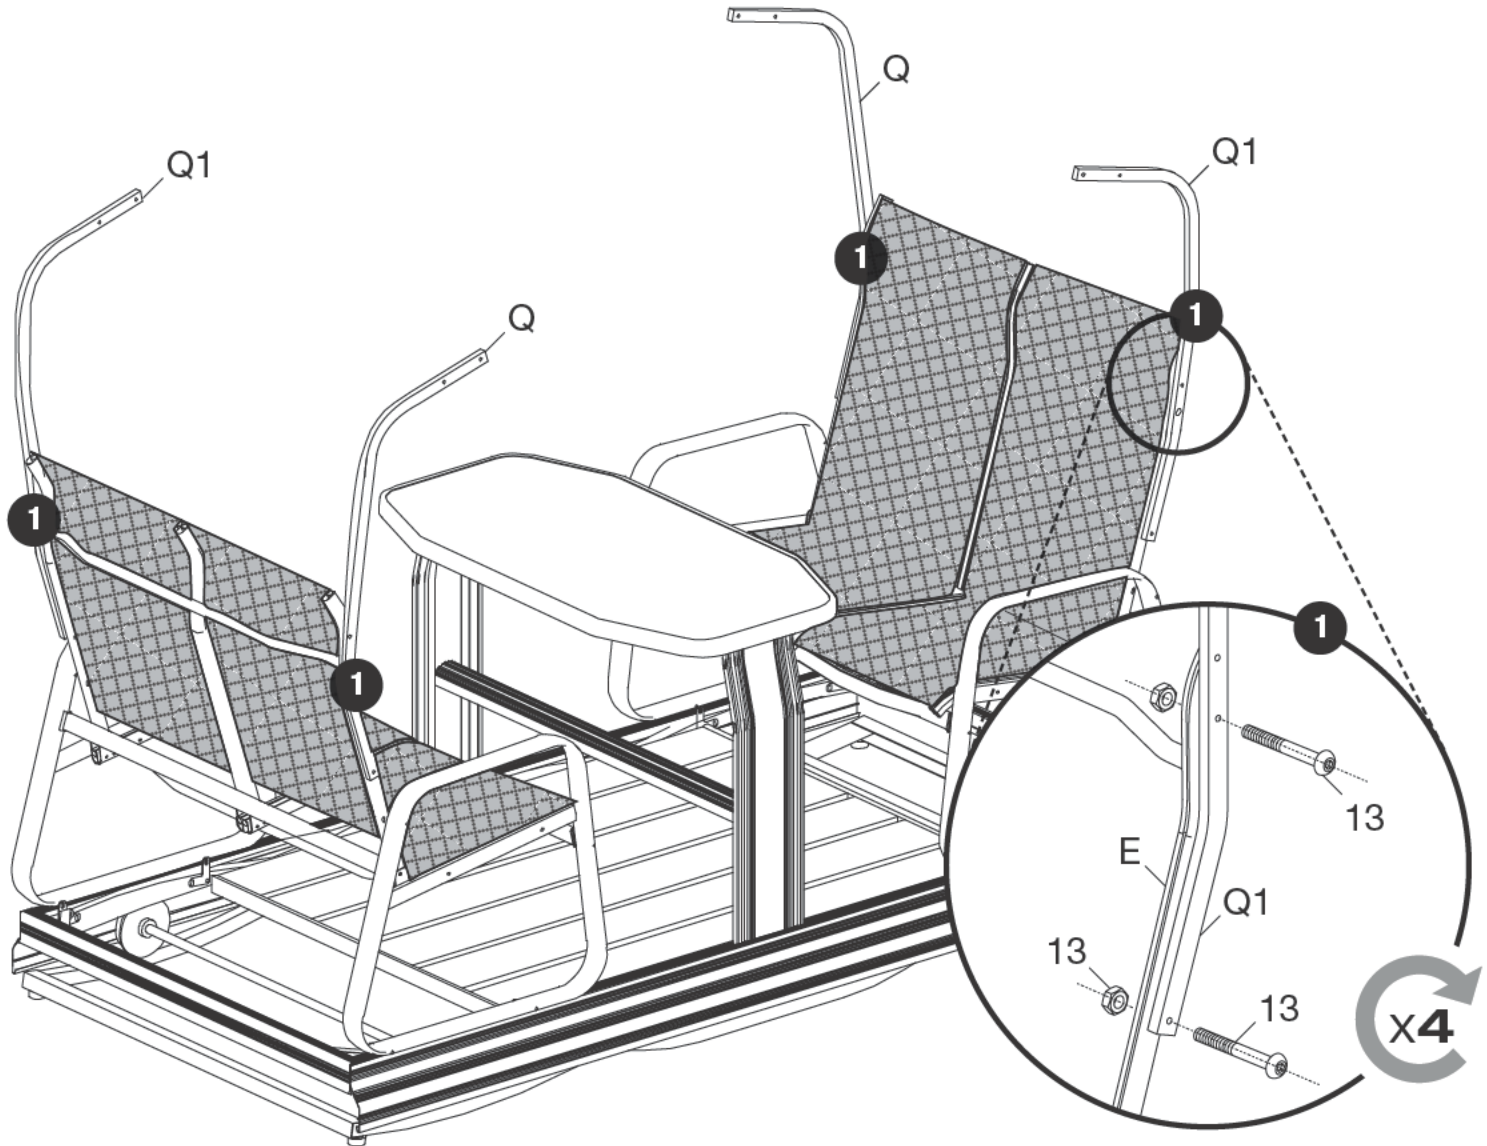

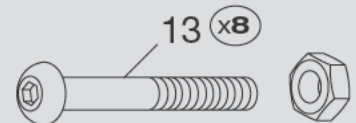

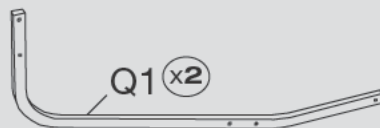

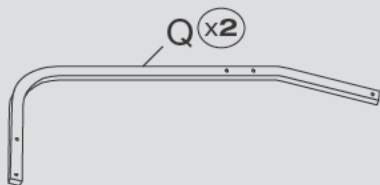

# Step 10

10.1 Attach a roof structure (Q) and a roof structure (Q1) to the seat (E) using the screws and nuts (13) as illustrated.

Repeat for remaining roof structures (Q and Q1).

Parts required for this step / Pièces requises pour cette étape :

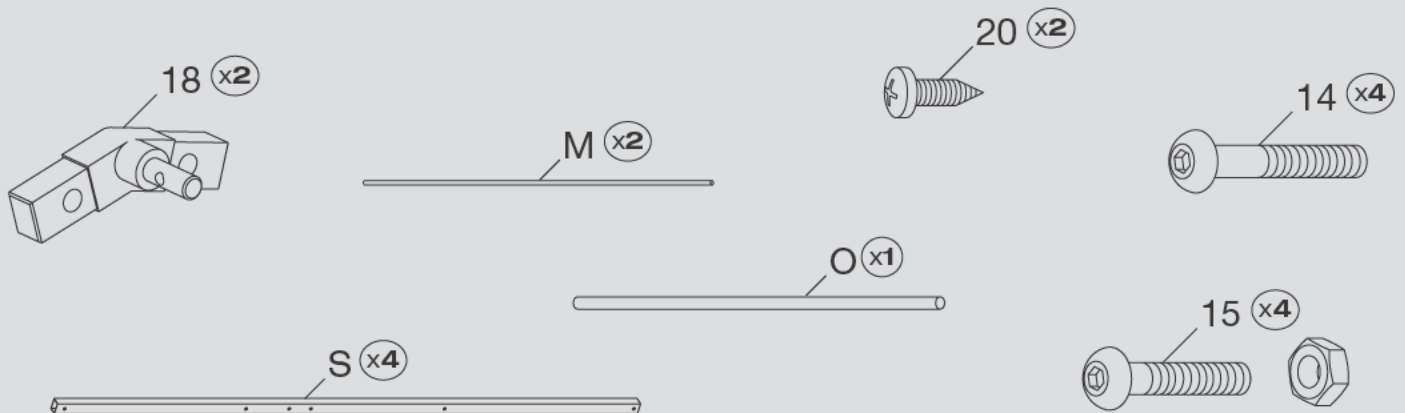

# Step 11

- 11.1 Attach two roof structure bars (S) to a connector (18) using the screws and nuts (15) as illustrated. Repeat for remaining roof structure bars (S).
- 11.2 Join the central roof bar (O) between two connectors (18) as illustrated. Attach using the screws (20).
- 11.3 Attach the roof bars (M) to the roof structure bars (S) using the screws (14) as illustrated.

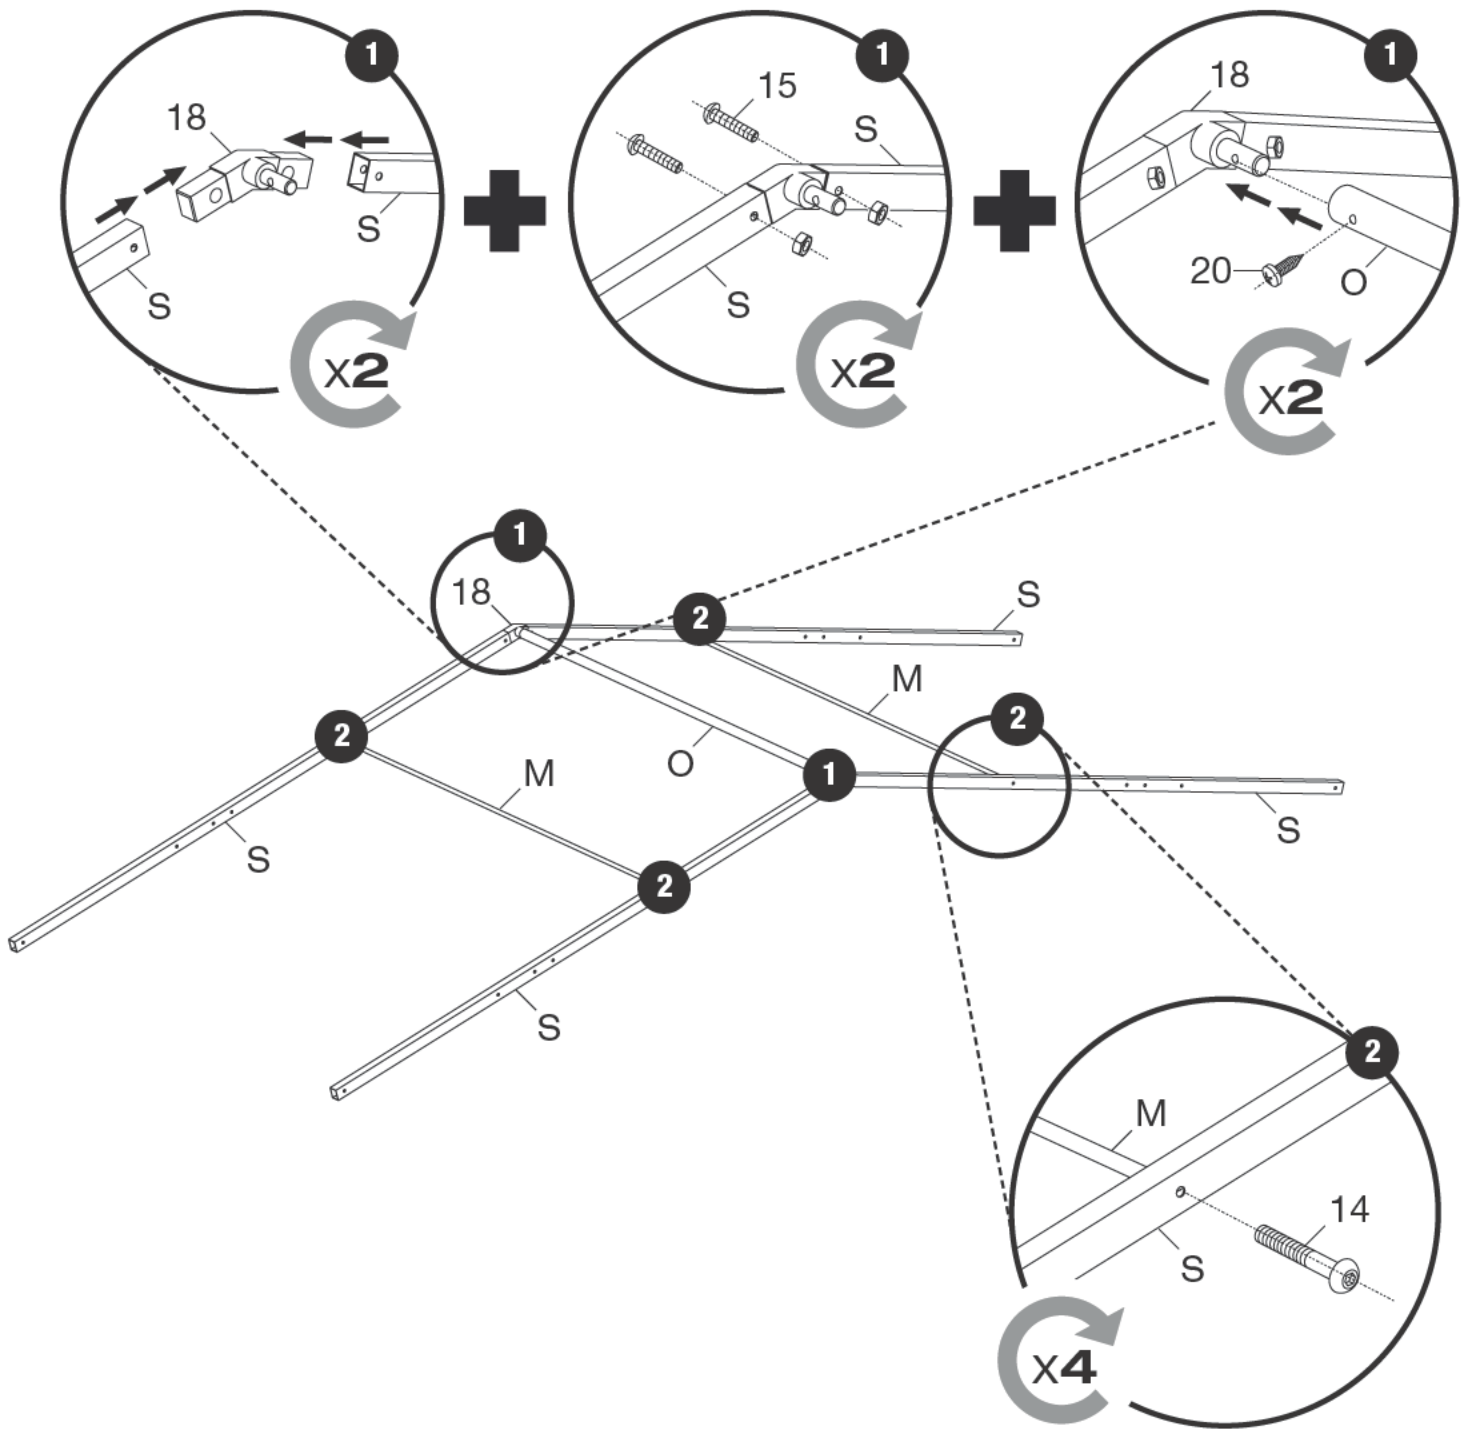

# Étape 11

- 11.1 Attacher deux barres de structure de toit (S) au connecteur (18) en utilisant les vis et écrous (15) tel qu'illustré. Répéter pour les barres de structure de toit (S) restantes.
- 11.2 Joindre la barre centrale de toit (O) entre les deux connecteurs (18) tel qu'illustré. Attacher en utilisant les vis (20).
- 11.3 Attacher les barres de toit (M) aux barres de structure de toit (S) en utilisant les vis (14) tel qu'illustré.

Parts required for this step / Pièces requises pour cette étape :

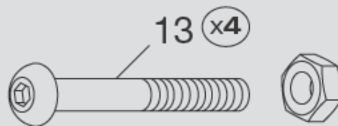

## Step 12

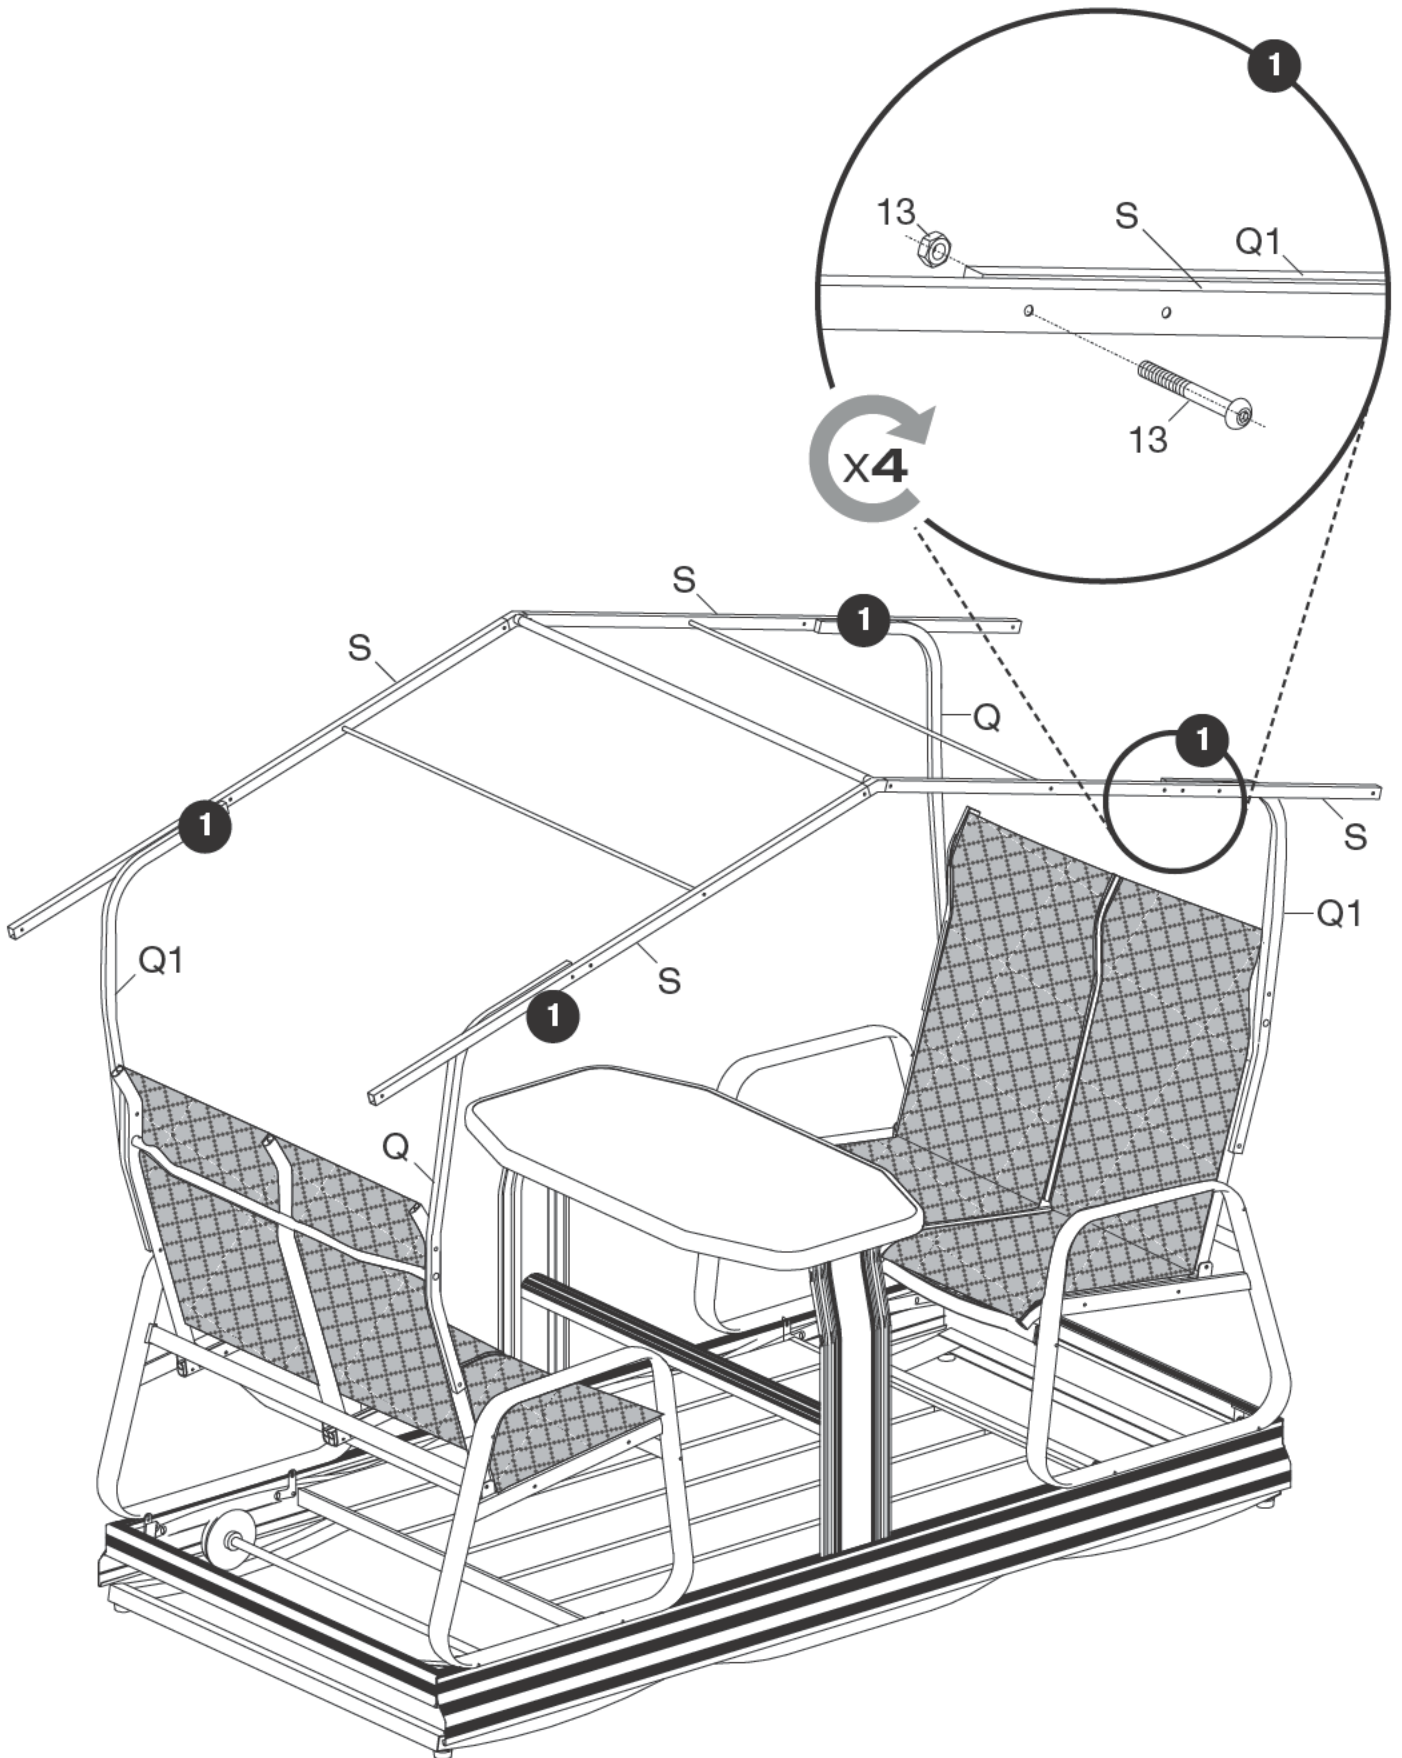

- 12.1 Attach the roof structure bars (S) to the roof structure (Q and Q1) using the screws and nuts (13) as illustrated.

## Étape 12

- 12.1 Attacher les barres de structure de toit (S) aux montants de toit (Q et Q1) en utilisant les vis et écrous (13) tel qu'illustré.

Parts required for this step / Pièces requises pour cette étape :

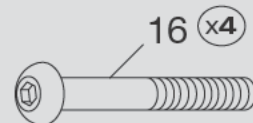

## Step 13

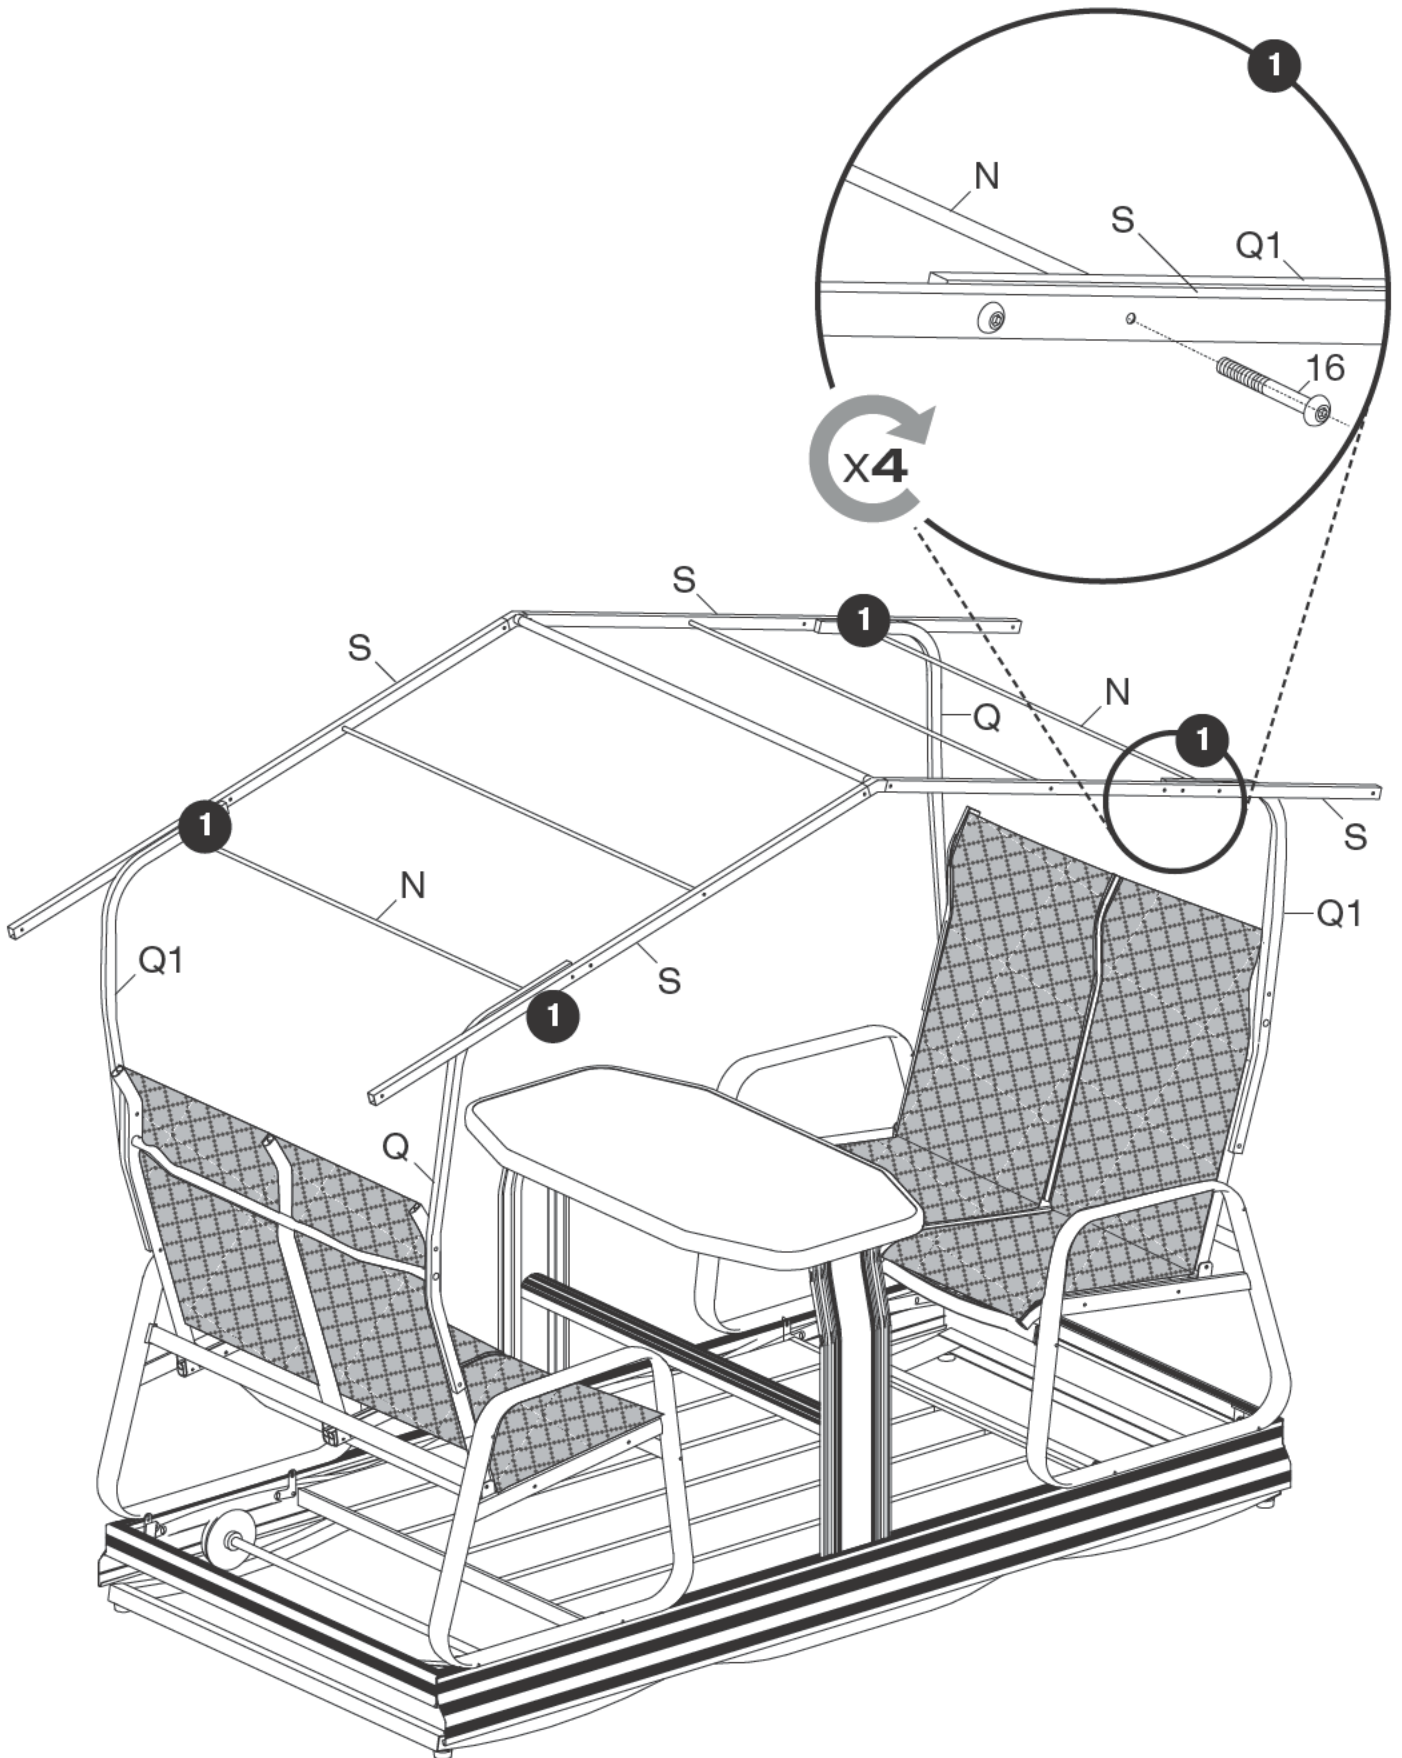

- 13.1 Attach the roof bars (N) to the roof structure (Q and Q1) using the screws (16) as illustrated. Each screw (16) must be inserted into the roof structure bar (S), then the roof structure (Q or Q1) and finish into the roof bar (N).

## Étape 13

- 13.1 Attacher les barres de toit (N) aux montants de toit (Q et Q1) en utilisant les vis (16) tel qu'illustré. Chaque vis (16) doit d'abord être insérée dans une barre de structure de toit (S) puis dans un montant de toit (Q ou Q1) et terminer dans une barre de toit (N).

Parts required for this step / Pièces requises pour cette étape :

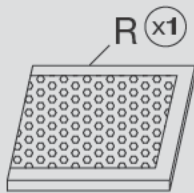

## Step 14

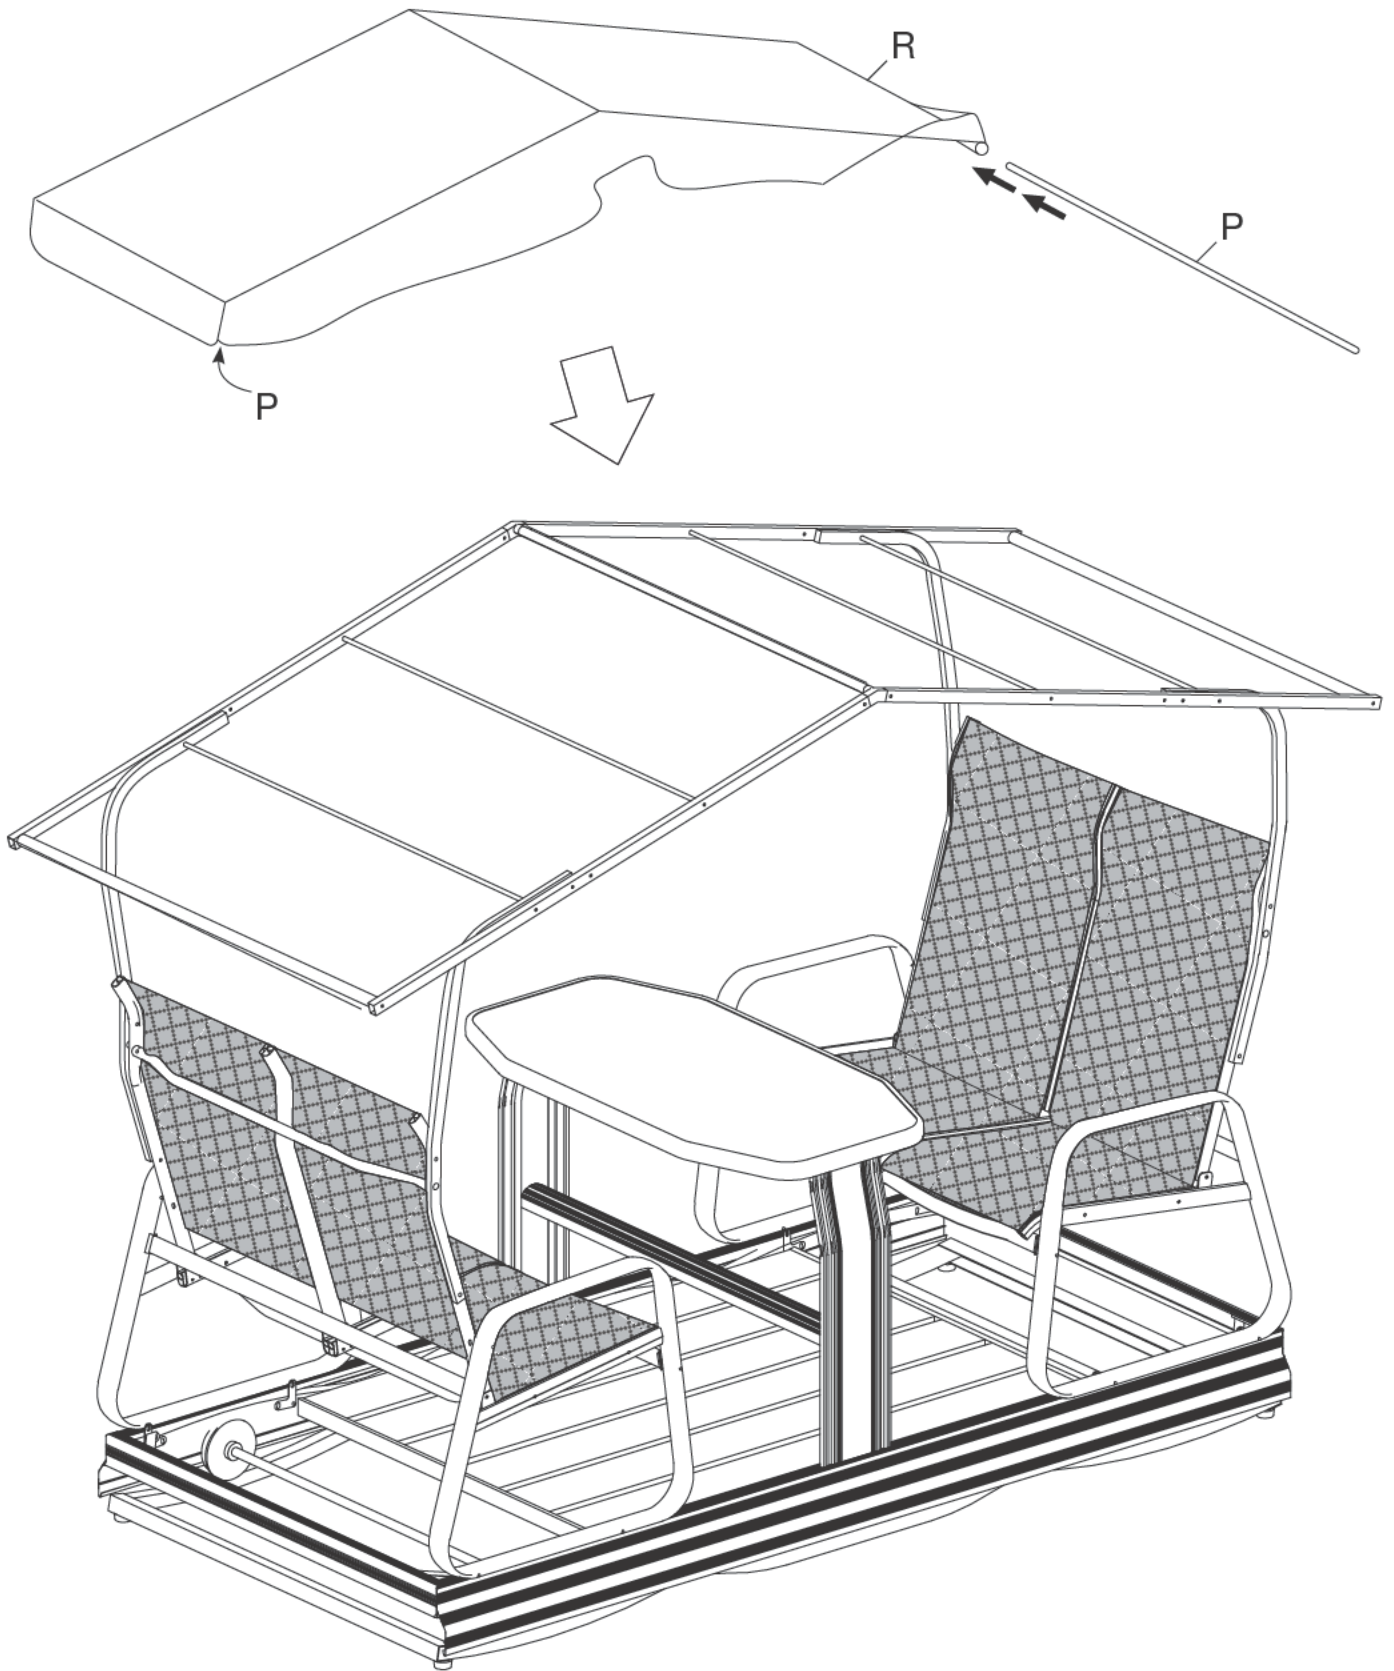

- 14.1 Slide a roof bar (P) at each extremity of the roof (R) as illustrated.
- 14.2 Cover the top of the structure with the roof (R) and attach the roof to the structure using the velcro.

## Étape 14

- 14.1 Glisser une barre de toit (P) à chaque extrémité du toit (R) tel qu'illustré.
- 14.2 Couvrir le dessus de la structure avec le toit (R) et attacher le toit à la structure en utilisant les velcros.

Parts required for this step / Pièces requises pour cette étape :

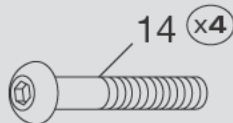

## Step 15

- 15.1 Attach the roof bar (P) to the roof structure bars (S) using the screws (14) as illustrated.  
Repeat for remaining roof bar (P).

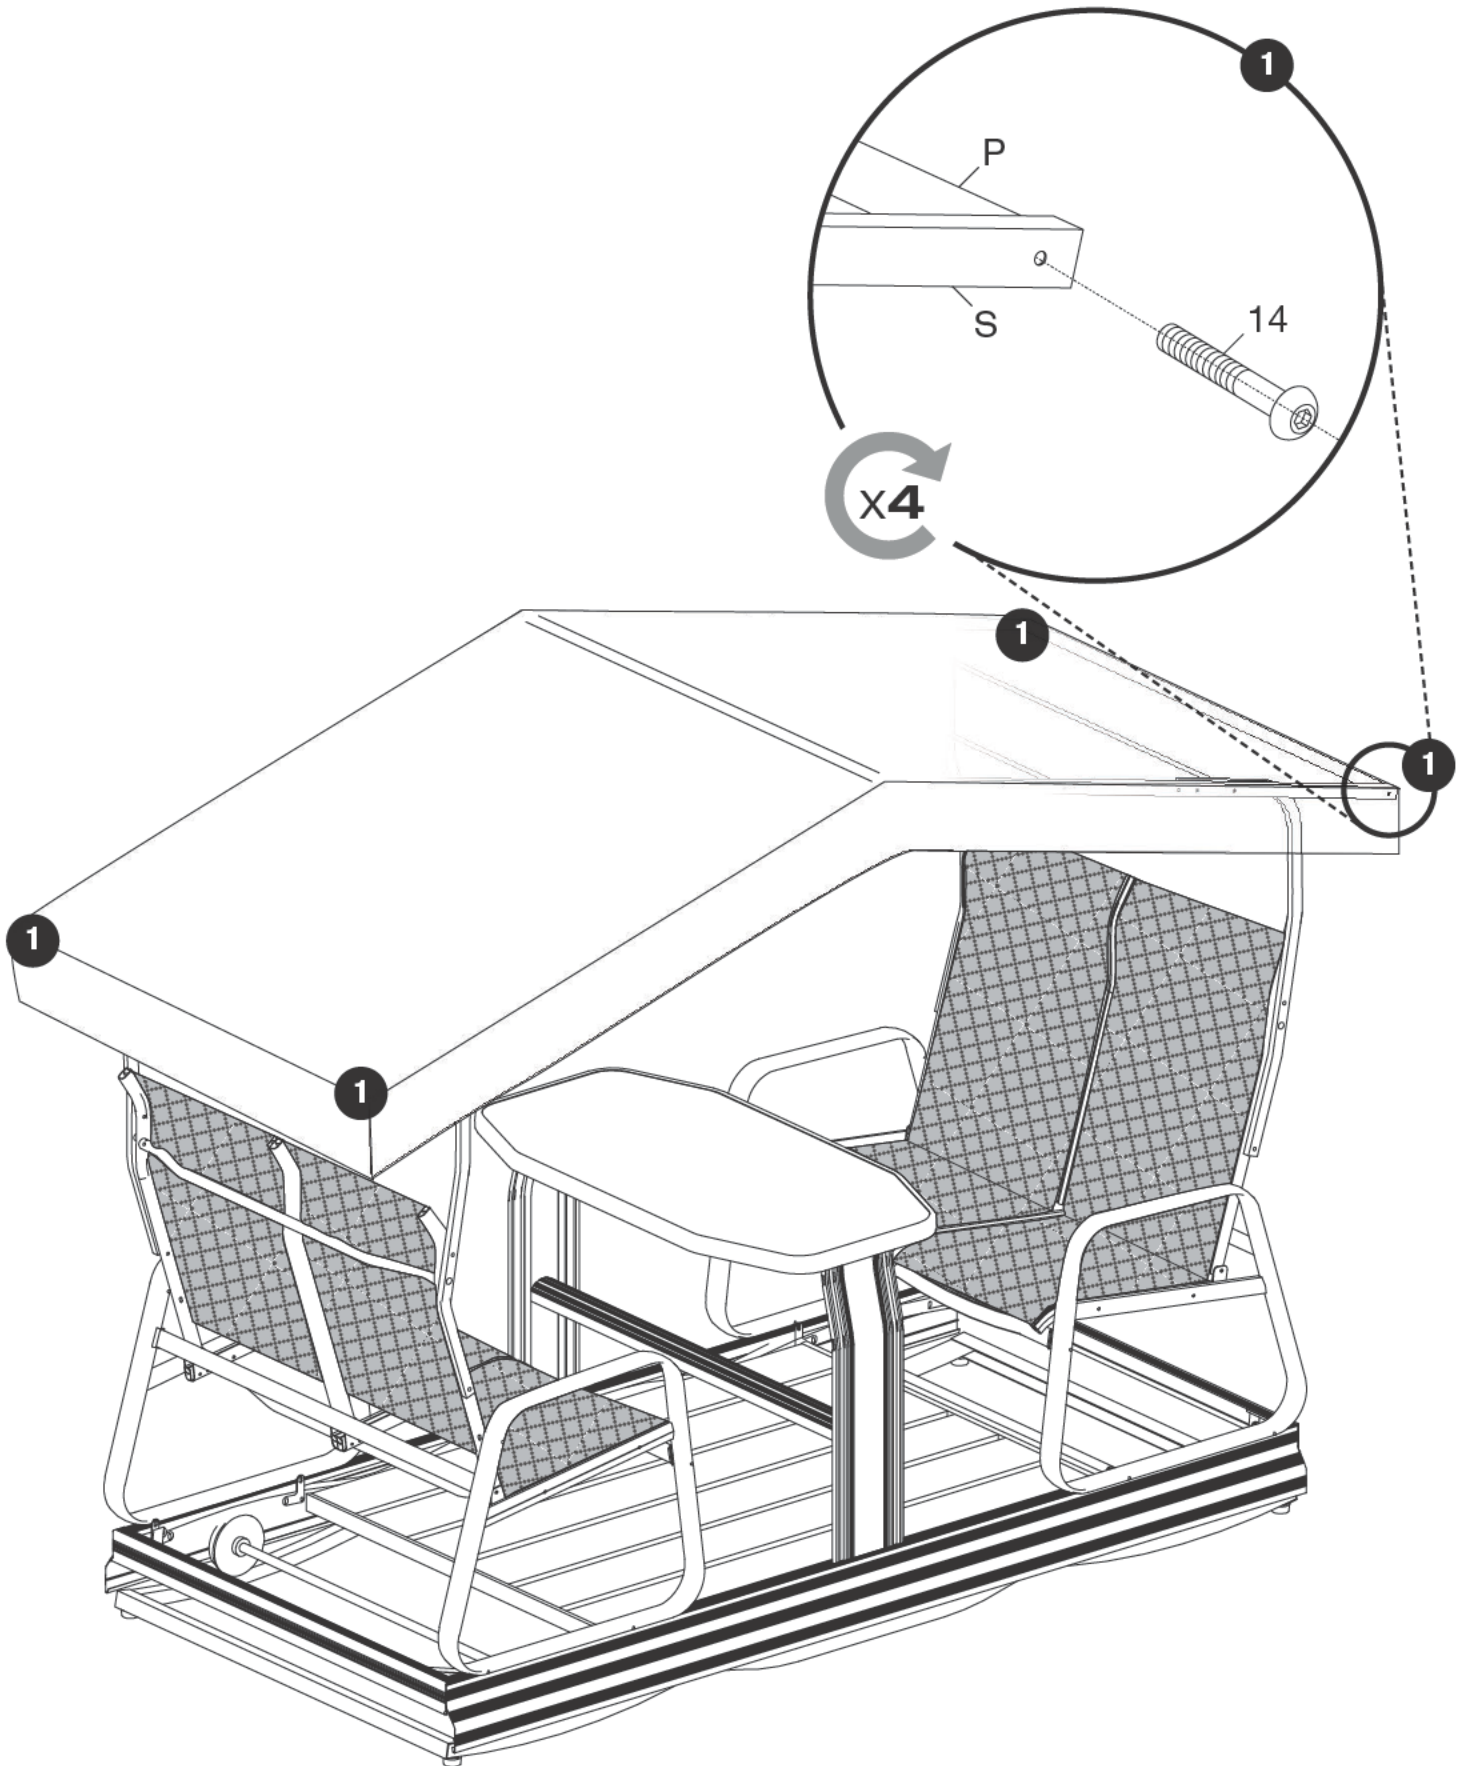

## Étape 15

- 15.1 Attacher la barre de toit (P) aux barres de structure de toit (S) en utilisant les vis (14) tel qu'illustré.  
Répéter pour la barre de toit (P) restante.

Parts required for this step / Pièces requises pour cette étape :
